MEMORANDUM FOR :

25X1A

SUBJECT : "White Phone" Service on the White House
Security Switchboard

1. As you know, the Chairman and members of the Intelligence Board are provided "White Phone" telephone service by the White House Security Switchboard (WHSS). A general description of the operation of this system and its use by USIB is contained in the attached documents which are forwarded for your information.

2. In order that arrangements may be made for Mr. McCone to receive this service, will you kindly advise us with respect to his wishes on this matter, including as to when it will be convenient for the white telephone instrument to be installed in his residence. On the basis of that information, we will then request the White House Security Switchboard to effect the necessary installation.
